

Lab Report

July1,2026

1. Write a program to implement the DDA (Digital Differential Analyzer) Line Drawing Algorithm.
2. Write a program to implement Bresenham's Line Drawing Algorithm.
3. Write a program to implement the Midpoint Circle Generation Algorithm.
4. Write a program to implement the Midpoint Ellipse Generation Algorithm.
5. Write a program to implement the 4-connected and 8-connected Flood Fill Algorithm.
6. Write a program to implement the 4-connected and 8-connected Boundary Fill Algorithm.
7. Write a program to perform 2D Translation Transformation.
8. Write a program to perform 2D Rotation Transformation.
9. Write a program to perform 2D Scaling Transformation.
10. Write a program to perform 2D Reflection Transformation.
11. Write a program to perform 3D Translation Transformation.
12. Write a program to perform 3D Rotation Transformation.
13. Write a program to perform 3D Scaling Transformation.
14. Write a program to perform 3D Reflection Transformation.
15. Write a program to draw a Bezier Curve.
16. Write an OpenGL program to draw a Point.
17. Write an OpenGL program to draw a Line.
18. Write an OpenGL program to draw a Triangle.
19. Write an OpenGL program to draw a Polygon.
